Monthly Scheduled Quantities (MSQ)

The e-auction is being conducted for the period Jan’21 to March’21. However as the eAuction event is scheduled on 30.12.2020, the successful bid quantity of a bidder for the period would be divided in 3 (Three) equal parts i.e. Jan’21 to March’21 for determining Monthly Scheduled Quantities (MSQ) for coal supplies during the period. However, in case of supply by rail, such equal monthly parts shall be in the multiple of rake load. The total successful bid quantity in rake loads for the period for a bidder shall be distributed equally over the operative months of the period. In the event the number of rakes is not exactly divisible by no. of operative months, it will be dealt as under:

a) If the number of rakes is less than number of months, it will be sequentially distributed from the initial month.

b) If some rakes are left in excess after equal monthly distribution, these rakes will also be distributed subsequently from the initial month.

However both buyer and seller can recast the monthly schedule on mutual consent in advance of the stipulated date of payment of 2nd installment.

This is due to typographical error which is deeply regretted. All other information in the notices as mentioned above remains same..
