1. Introduction and Context

The consortium of Reliance Industries Limited (“**RIL**”) and BP Exploration (Alpha) Limited (“**BPEAL**”) (RIL and BPEAL collectively, the “**Consortium**”) are parties to the Production Sharing Contract (the “**PSC**”) for offshore Block KG-DWN-98/3 (the “**KG D6**”) located off the East Coast of India. The KG D6 block was awarded by the Government of India (the “**GoI**”) under Round I of the New Exploration Licensing Policy. The gas produced from the Gas Fields has been granted marketing and pricing freedom according to Notification No. O-22013/27/2012-ONG-D-V (Vol. II) dated 21 March 2016 issued by the Ministry of Petroleum and Natural Gas, GoI.

RIL is the operator of the KG D6 block and has developed an onshore terminal at Gadimoga, Andhra Pradesh, which is connected to the Kakinada-Bharuch gas pipeline of Pipeline Infrastructure Limited (the “**PIL Pipeline**”) and which further connects to other nation-wide gas pipeline networks (including the Integrated HVJ network, the GSPL network, the DUPL–DPPL network and other regional pipelines).

The Consortium issued a Notice Inviting Offer (the “**NIO**”) dated 29 December 2022 and invited offers from interested companies (each, a “**Bidder**” and collectively, the “**Bidders**”) to offtake gas from the Gas Fields on the price basis specified in Request for Proposal No. RFP/KGD6/2022/001 dated 29 December 2022 which is now amended with this Request for Proposal No. RFP/KGD6/2022/001 (AMENDMENT) (“**RFP**”), commencing from 16 April 2023 at the Delivery Point located in Gadimoga, Andhra Pradesh subject to the terms and conditions stated in this RFP and the Gas Sale and Purchase Agreement (the “**GSPA**”).

Consortium has appointed mjunction services limited (“**mjunction**”), as an independent agency empaneled by Directorate General of Hydrocarbons (“**DGH**”), to conduct bidding process for sale of gas through the web based electronic bidding platform which are available at (i) <https://eps.buyjunction.in/gasbidding> for registration and Technical Evaluation (the “**e-Tendering Portal**”) and (ii) <https://auction.coaljunction.com> (the “**e-Bidding Portal**”) for bidding (collectively hereinafter referred as the “**e-Bidding Platform**”). This link for e-Bidding Platform has also been webhosted on the websites of DGH and members of the Consortium.

The bidding process is outlined below:

To participate in the e-Bidding, each Bidder shall be required to quote valid bids against the parameters specified below. At all times during the e-Bidding, such bid quoted must be in compliance with the criteria set forth in Sections 8.1.1 and 8.1.3 of this RFP.

- (i) **'Bid against price basis'**: Denoted as a variable **'V'** as specified in Section 8.1.1 of this RFP, that a Bidder would be required to quote in **US\$/MMBtu** terms."

- (iii) **Volume**: Quantum of gas volume as described in Section 8.1.3 of this RFP.

8.1.1 'Bid against price basis'

A Bidder shall be required to quote the variable denoted as **'V'** in **US\$/MMBtu** terms (**'Bid against price basis'**) pursuant to the Gas Price formula specified below

$$\text{Gas Price (in US$/MMBtu (GCV))} = \text{JKM} + \text{V}$$

Where,

- (i) **Gas Price** would be computed up to **three decimal places**.
- (ii) *"JKM" is the arithmetic average of all the JKM (M) frontline quotations published in the JKM Market Price Table for each Commodity Business Day, as published in Platts LNG Daily in the JKM Marker Price Table entitled AAOVQ00, during the Assessment Period;*

"Assessment Period" means the period covering the second half (16th – month end (unless the 16th is not a Platts Business Day, in which case the next Platts Business Day until month end)) of M-2 month and the first half (1st – 15th, unless the 15th of that month is not a Platts Business Day, in which case the first half will end of the day immediately before the next Platts Business Day) of M-1 month;

"M" is the calendar month in which the Gas is to be supplied;

"Commodity Business Day" shall mean a day in respect of which Platts LNG Daily published prices for "DES Japan/Korea Marker (JKM)";

"JKM Marker Price Table" means the section headed "DES Japan/Korea Marker (JKM)" of the table "Platts daily LNG markers (US\$/MMBtu)" published in Platts LNG Daily;

"Platts Business Day" means a business day for the purposes of the Platts Methodology and Specifications Guide; and "Platts LNG Daily" means the publication of that same name published by McGraw Hill Financial.

- (iii) **V** in US\$/MMBtu shall be quoted by a Bidder which should be a positive, zero or negative number and up to two decimal places.

- (i) **Starting 'Bid against price basis':** The starting 'Bid against price basis' for the e-Bidding is **V = US\$ - 0.42/MMBtu**. Each Bidder is required to enter bids that are higher than or equal to the starting 'Bid against price basis'. Any bid lower than such starting 'Bid against price basis' shall not be accepted by the system.
- (ii) **Ticker size for 'Bid against price basis':** During the e-Bidding, for 'Bid against price basis' only upward increments shall be allowed and it cannot be decreased. The minimum increment Ticker size for the 'Bid against price basis' shall be **US\$ 0.09 /MMBtu**, and a Bidder is only able to increase its previous 'Bid against price basis' in multiples of the Ticker size defined.
- (iii) The maximum valid 'Bid against price basis' shall be **V = US\$ 2.01/MMBtu** beyond which bid shall not be accepted by the e-Bidding Portal.

8.1.2 Not Used

8.1.3 Volume

A Bidder shall be required to quote Volume bids that it would be ready to offtake from the Start Date. Such bids should be quoted in standard cubic meters per day (SCMD). All bids quoted against Volume shall be in whole number. At all times, a Volume bid must comply with the following requirements:

- (i) **Total Available Volume:** A total volume of **60,00,000 SCMD** would be available for bidding;
- (ii) **Minimum Volume bid:** The minimum volume for the bidding process shall be **10,000 SCMD**;
- (iii) **Maximum Volume bid:** The maximum volume that a Bidder can bid for during the bidding process shall be as per the volume mapped to such Bidder which shall be lower of (x) Maximum Bid Volume corresponding to the value of minimum net worth & minimum gas procurement of the Bidder (in accordance with Section 3 and Section 7.2.1 of this RFP) and (y) Bid Volume for which Security Deposit (refer to Section 7.2.2.1 of this RFP) has been submitted;

For example: If the Maximum Bid Volume for a bidder determined by mjunction pursuant to section 7.2.1 (iii) is 35,00,000 SCMD and the Security Deposit (refer to Section 7.2.2.1 of this RFP) submitted by such bidder is INR 110 Crore, then the Maximum Volume bid for such bidder shall be 35,00,000 SCMD.

For avoidance of doubt, a Bidder participating in the e-Bidding either through a single registration or separate registrations, it can bid only up to the mapped volume as determined pursuant to lower of (x) and (y) above, by mjunction;

- (vi) **Increment/Decrement:** The Volume bid can be increased or decreased any time during the e-bidding provided the 'Bid against price basis' is increased. As Volume is a competitive bid parameter and therefore, any change in this parameter after allocation of Provisional GSPA Quantity, has to be accompanied with increase in "Bid against price basis";
- (vii) **Provisional GSPA Quantity:** The Volume bid can never be less than the Provisional GSPA Quantity determined by the e-Bidding Portal. Further, if the Provisional GSPA Quantity is less than the Minimum Volume bid specified at Section 8.1.3(ii) above, the next Volume bid must be equal to or higher than the Minimum Volume bid specified at Section 8.1.3(ii).

 - (b) After the first extension of the e-Bidding Duration, if a valid bid is received during the last ten (10) minutes before the close of the extended bidding period, and such bid alters the Provisional GSPA Quantity determined by the e-Bidding Portal for any of the Bidder, the e-Bidding Duration shall be further extended for another period of fifteen (15) minutes.
 - (c) The auto-extension process described in this Section 8.2(iv) of this RFP will continue to apply until the conditions for closing the bid as specified in Section 8.2(v) of this RFP are met, and such auto-extensions may result in the e-Bidding extending beyond the e-Bidding Date.
- (v) **Bidding Closure:** The e-Bidding ends:
 - (a) If no valid bids are received within the First Bid Period; or
 - (b) if the e-Bidding Duration expires with no bid revision in the period specified in Section 8.2(iv) of this RFP which alters the Provisional GSPA Quantity;
- (vi) **Working Days:** The e-Bidding shall be conducted on Working Days only. If any extension in the e-Bidding Duration is triggered within the last ten (10) minutes immediately preceding 19:15 hours (Indian Standard Time) of any Working Day, such an extension shall be the last extension for that Working Day and the e-Bidding shall be paused at 19:30 hours (Indian Standard Time). - (iii) During the e-Bidding, as and when any new valid bid is received, the e-Bidding Portal shall follow the below mentioned steps:
- a. **Step 1:** The 'Bid against price basis' shall be arranged in descending order.
 - b. **Step 2:** As Tenure is a fixed parameter, the Provisional GSPA Quantity shall be determined as follows:
 - (i) The Provisional GSPA Quantity shall be determined for the highest Bidder (for 'Bid against price basis') for the full volume which it has quoted (subject to the Maximum Volume bid), followed by the next highest Bidder (for 'Bid against price basis') for its quoted volume or remaining available volume, whichever is lower, and so on until the Total Available Volume is fully allocated.
 - (ii) In case of a tie for any valid bids for 'Bid against price basis' and if the aggregate volume of gas quoted by these Bidders is more than the available gas volume, then the available gas volume shall be distributed among these Bidders as per the below order:
 1. CNG (T)/ PNG(D)
 2. Fertiliser
 3. Power Plants
 4. End Consumers/Traders
 - c. **Step 3:** Steps 1 and 2 shall continue throughout the e-Bidding and the Provisional GSPA Quantity shall continue to be determined by the e-Bidding Portal dynamically, until the conditions for the closing of the e-Bidding as specified in Section 8.2(v) are met.
 - d. **Step 4:** Upon the closing of the e-Bidding, the Provisional GSPA Quantity determined based on the last bids received shall be considered as the GSPA Quantity for each Bidder.

Bidders are requested to refer to the illustration specified at Section 8.6 of this RFP regarding determination of Provisional GSPA Quantity and GSPA Quantity pursuant to e-Bidding.

8.4 Notification by mjunction and execution of GSPA

- (i) Post completion of the e-Bidding, mjunction shall notify the Consortium and identified Bidders on GSPA Quantity determined pursuant to Bidder's last bid during the e-Bidding. For the purpose of signing the GSPA, the GSPA Quantity in SCMD shall be converted into MMBtu per day based on GCV of **0.036 MMBtu per SCM** ("standard cubic meter"). Based on the above, the Consortium shall execute GSPA with the Buyer. The execution of GSPA will be subject to Buyer having cleared the "**CDD**" to the satisfaction of the Sellers.
- (ii) Sellers shall request Buyer to submit the documents required for undertaking the "**CDD**" prior to the execution of the GSPA. The indicative list of documents is provided at Annexure VII of this RFP.
- (iii) mjunction shall provide Consortium with the list of remaining Bidders along with their last bid parameters, in decreasing order of their 'Bid against price basis', during the e-Bidding ("Additional Bidders"). Consortium at its sole discretion may invite Bidders from Additional Bidders to execute GSPAs.

9.4 Annexure IV: System Requirements

This Annexure IV to this RFP contains information regarding system requirements over and above the requirements specified in Section 4 of this RFP. In case of any conflict between the provisions of this Annexure IV to this RFP and the provisions of Section 4 of this RFP, each Bidder is hereby requested to consider the provisions of Section 4 of this RFP as appropriate.

9.1.1 Java

Java Platform/Applet is used for Digital Signature generation, verification. Under Windows, the browsers will usually, but not always, have Java enabled by default. Supporting installable files for e bidding process would be available on the home page for the users to download along with its instructions.

Please note that appropriate administrative rights may be required in order to install supporting tool available on the e-Bidding Platform and Digital Signature Certificate (DSC) on the Bidder's computer.

A Bidder should ensure that its computer is free from viruses, especially key-logging programs. It is the responsibility of each Bidder to ensure that computer is functioning reliably and that appropriate computer security measures are in force. Once the DSC that authenticates the Bidder has been installed on the computer, the Bidder should ensure that the computer is kept secure and not accessible by unauthorized personnel.

9.1.2 Tool bar/ Add-On/ Pop up blocker

A Bidder should ensure that there is no software installed on its computers that might interfere with the normal operation of its Internet browser. Each Bidder should ensure that it does not use any pop-up blockers, such as those provided by Internet Explorer and complementary software (e.g. the Google tool bar).

9.1.3 Power Management Settings

To ensure that a Bidder does not face any delay or difficulty in accessing the e-Bidding Platform, it is recommended that a Bidder:

- a) turns off any power management features on its computer such as automatic hibernation or suspension; and
- b) disables any screensavers.

If a Bidder's computer hibernates or suspends automatically, it will need to go through the login procedures again when the computer is awakened. This will cause some delay in returning to the e-Bidding Platform.

9.1.4 Access of other Software / Website during e-Bidding

It is recommended that a Bidder does not open other web pages when it is accessing the e-Bidding Platform. Viewing other web pages (especially complex ones) while accessing the e-Bidding Platform increases the risk of possible problems with its browser. Therefore, it is recommended that each Bidder should dedicate one computer to run the e-Bidding, and not to utilize such designated computer to access other web pages or run other platforms. This will help to minimize the risk of crashes or other potential problems.

9.1.5 Internet Connection

To access the e-Bidding Platform, a Bidder will need an Internet connection. We recommend that a Bidder use a reliable broadband Internet connection with a download bandwidth of 1MBPS or higher. Wireless connections may be adequate, but it is important that the latency of network connections to the e-Bidding does not exceed 20-30 seconds to ensure reliable access.

It is recommended that a Bidder has a back-up computer and backup Internet connection that can be used if either its primary computer or Internet connection fails.

9.1.6 Display

A Bidder is recommended to use a display with a screen resolution of 1366 X 768. A Bidder can use a lower screen resolution, but it may find that some tables are difficult to view.

9.1.7 e-Bidding Platform backup Facilities

If the main server fails, the e-Bidding will be resumed using backup facilities. The normal process for this would be the following:

- (i) mjunction would advise all Bidders directly of the need to switch to the back-up system and the time from which the back-up facility should be expected to be online and available to all Bidders.
- (ii) If the primary server remains available, a Bidder would be required to log out normally. Otherwise, a Bidder would be advised to close its Internet Explorer browser.
- (iii) Once the back-up facilities are online, all eligible Bidders will be duly advised by mjunction regarding the e-Bidding.
